DETAILED ACTION

Response to Amendment

Claims 26-49 are pending.

The 35 USC 101 rejection of claim 37 is withdrawn based on applicant's amendment filed on July 26, 2004.

The 35 USC 102 and 103 rejection has been withdrawn based on applicant's amendment filed on July 26, 2004.

Allowable Subject Matter

Claims 26-49 are allowed.

The following is an examiner's statement of reasons for allowance:

After reviewing applicant's amendment, arguments and conducting an updated search none of the cited prior arts alone or in combination discloses the claimed Raman gain of independent claims 26 and 39.

Regarding claims 26-38,

None of the cited references discloses the claimed method for providing a dynamically spectrally tailored Raman pump for generating Raman gain for a plurality of signals in particular having the steps of driving a plurality gain elements by using a plurality current sources, where each current source drives at least one gain element by a variable current, combining the outputs to generate Raman pump, providing the Raman pump to generate Raman gain to a plurality of signals wavelengths, determining the power levels of the signal wavelengths and adjusting the variable current using the power levels to cause the dynamic spectral tailoring of the Raman pump.

Application/Control Number: 09/945,370

Art Unit: 2828

Regarding claims 39-49,

None of the cited references discloses the claimed system for providing Raman gain to a plurality of signal wavelengths having the structural combination of claim 39 in particular a Raman amplifier receiving the Raman pump for amplifying the plurality of signal wavelengths and a controller device causing the plurality of gain elements to operate at variable power levels in response to received information indicative of Raman gain produced by Raman pump, where the operation of gain elements at variable power levels cause dynamic spectral tailoring of the Raman pump.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ARMANDO RODRIGUEZ whose telephone number is 571-272-1952. The examiner can normally be reached on 9:00 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, MINSUN HARVEY can be reached on 571-272-1835. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
